

TEPS prides itself on being a leader in the electrical industry. We are a team of problem solvers who focus on service. Partnering with best in class manufacturers, we bring you the right solutions to your applications for electrical **Power, Control, Safety and Automation**. TEPS delivers the right product for your needs.

- **Founded in 1991**, ADEL System develops and manufactures industrial linear and switch-mode power supply units and it is recognized as one of the world's leading manufacturer of industrial power supplies, DC UPS and intelligent battery chargers.

- **Antaira Technologies** is a leading developer and manufacturer that provides high-quality industrial networking and communication product solutions.

- **Arteche** develops equipment for the electric power industry, including generation, transmission, and distribution.

- **Boltswitch** manufactures a variety of special switches, live-front disconnects, dead-front connects, transfit switches, fuse blocks and the like. Typical ratings are 800 through 6000 amps.

- **Curtis Industries** – a specialized electrical component manufacturer of custom and standard Terminal Blocks, EMI/RFI Power Line Filters, Printed Circuit Board Blocks, Tri-Mag Power Supplies, Connectors and Supports, TEMPEST Military Line Filters and other Custom Plastic Molded Electrical and Electronic Components for Industrial Applications.

- **Measurement Instrumentation Specialists Testing and Measuring Equipment**
We conceive and engineer electrical measuring instruments to comply with the most demanding standards. Our high-performance digital clamp meters, multimeters, and testers are developed to cover the requirements of any electrical installation.

- **Power Conversion Equipment:**
Battery Chargers, Power Supplies, Telecommunications Rectifiers, Rackmounted UPS Systems, Converters (DC to DC) and Inverters (DC to AC), Distribution Blocks, Braids, Busbar, Clamps & Supports

TOTAL ELECTRIC POWER SALES

TEPS Incorporated An Independent Sales Agency
1411 East Nine Mile Road, Ferndale MI 48220
Office 248 543 1141
info@teps.com Visit www.teps.com for more information

- **Power Quality Products:**
DC Link Chokes, Harmonic Filters, AC Line/Load reactors, RFI/EMI (Noise) Filters

- **Electrical Safety Devices, Switches, and Signaling Products:**
Position switches, micro switches, safety devices, safety modules, foot switches, control and signaling devices

- **Medical Power Control and Productivity:**
Isolated Power Panels and Controls, Line Isolation Monitors, X-ray Film Viewers

- **PQ Global** is a world leader in the design and manufacturing of Surge Protection Devices with most of our manufacturing at our New York, USA facility

- **Power, Control, Safety & Energy Efficiency Products:**
Load Break Switches, Fused Disconnects, Changeover Switches, Monitoring & Power Quality Metering, Electronic Protection & Enclosed Protection/Switching Devices

- **Electrical Power Distribution & Control Equipment:**
Power Distribution and Control Buildings (PDC), Transformer Disconnects, Unitized Substations, Padmounted Switchgear, Primary Metering, Specialty Equipment

- **Liquid Filled Transformers:**
Distribution Transformers: Padmounted & Unit Subs – Up to 10,000 kVA & 35kV, Submersible Up to 2,500 kVA & 35kV, Pole type - Up to 1,000 kVA 35kV, Specialty – Custom & retrofit designs, Hazardous environment locations, and Military Installations.

- **Liquid Filled Power Transformers:**
Transformers up to 1400MVA, 500kV, Automatic LTC Transformers – Up to 500MVA & 230kV, Generator Step-Up Transformers – Up to 1400MVA & 500kV, Dry Type Transformers – Up to 20MVA & 35kV, Cast Coil (Uniclad) Transformers – Up to 15MVA & 35kV

- **Medium and Low Voltage Drives and Control Products:**
Low Voltage Drives 0.18kW-2000kW, Low Voltage Soft Starters 0.55kW-1950kW, Contactors and Overload Relays, Motor Protective Circuit Breakers, Molded Case Circuit Breakers, Air Circuit Breakers, Mini Circuit Breakers, Terminal Blocks, Pilot Devices, Medium Voltage VFD, and Soft Starters 2.3kV-6.9kV
